IEEE I2ITCON 2025 recognizes cutting-edge research with best paper awards

Story by Swati Shinde Gole • 6d • 2 min read

IEEE I2ITCON 2025 recognizes cutting-edge research with best paper awards

PUNE: The IEEE I2ITCON 2025 conference, technically co-sponsored by the IEEE Pune Section, concluded on a high note on July 5 at The Hope Foundation and Research Centre - International Institute of Information Technology (I²IT), Pune.

The prestigious two-day event, held on July 4 and 5, brought together leading researchers, academicians, and industry experts from across the globe to showcase and deliberate on innovations in AI, computing, and emerging technologies, a statement issues by the organisers said.

This year, the conference witnessed an overwhelming response, with over 2,500 paper submissions from researchers worldwide. Out of these, 236 papers were shortlisted and presented across various technical tracks. In a keenly awaited valedictory session, four outstanding papers were conferred with the coveted Best Paper Award, recognizing exemplary contributions in advancing technology and research.

In the AI, ML & Deep Learning track, the paper titled "GovernAI: Policy-Driven Model Governance for Dynamic and Multi-Tenant AI Systems", authored by Sana Zia Hassan, Karan Alang, Nagarjuna Nellutla, Shrinivass Arunachalam Balasubramanian, and Vamshidhar Morusu, was awarded for its pioneering approach to managing AI systems in complex, multi-tenant environments. Another paper from the same track, "Differentially Private Pipelines: Practical Approaches for Large-Scale Feature Stores", by Pooja Devaraju, Satya Manesh Veerapaneni, Ram Ghadiyaram, Jaya Eripilla, and Sudeep Acharya, was recognized for its innovative techniques ensuring privacy in large-scale AI data pipelines.

In the Computing Technologies track, the award-winning paper "A Framework for Intelligent Cloud Systems: Enabling Secure, Policy-Driven, and Sustainable AI at Scale", authored by Lakshman Kumar Jamili, Sumeer Basha Peta, Ranganath Nagesh Taware, Balaji Krishnan, and Srikanth Perla, impressed the jury with its vision for scalable and secure AI deployments. Another paper titled "Training AI to Simulate Reality Through Self-Constructed Representations", by Rohan Shahane, Shazia Hassan, Nandita Giri, Sashi Kiran Kaata, and Vijayakumar Krishnapillai, was honored for its innovative approach to bridging the gap between AI learning and real-world simulations.

The conference underscored Pune's growing prominence as a hub for technological innovation and research, providing a robust platform for knowledge exchange and collaboration. With its diverse and forward-looking discussions, IEEE I2ITCON 2025 reaffirmed its commitment to shaping the future of technology.

"We are super excited to be launching our Dolly franchise tea stores and carts pan India," he said in his post, revealing plans to scale his popular brand.

"It's India's first viral street brand, and now it's a business opportunity. From carts to flagship cafes, we're launching nationwide and looking for real people with real passion to carry this dream forward. If you've ever wanted to build something big, something desi, something truly legendary â this is your moment. Limited cities. Unlimited chai. Applications open now," he added.

The announcement stirred up a buzz on social media, with many users expressing a mix of pride, disbelief, and curiosity. "Proud moment," a user said, while another commented, "Education is a scam in India."

Another user added, "I can't take this? Is this India?"

As congratulatory messages poured in, several followers also inquired about franchise locations and tea pricing, indicating the strong commercial interest the brand is already generating.

Rishabh Pant Creates History At Lord's, Breaks Two Massive World Records Held By MS Dhoni, Viv Richards

Story by Times Now Digital • 1d • 2 min read

L rishabh pant creates history at lord's, breaks two massive world records held by ms dhoni, viv richards

India are currently taking on England in the third Test of the five-match series at the Lord's Cricket Ground in London. After restricting England to 387 in the first innings, India were all out in the second innings for exactly the same score. One of the star batters for India in their innings was none other than Rishabh Pant, who continued his sparkling form in the series. He scored yet another half-century in this match. With his 74-run innings, Pant managed to break two separate world records, held by two of the greatest cricketers in history namely Sir Vivian Richards and MS Dhoni

Rishabh Pant hit two sixes in his knock of 74 from 112 balls. He has now hit 36 sixes against England in Test cricket. He now has become the batter with the most number of Test sixes against England. He broke the record of West Indies legend Sir Viv Richards, who hit 34 Test match sixes against England in his entire career.

Player	Country	Sixes
Rishabh Pant	India	36
Sir Viv Richards	West Indies	34
Tim Southee	New Zealand	30
Yashasvi Jaiswal	India	27
Shubman Gill	India	26

Rishabh Pant now has 1197 runs in Test Cricket against England, thus becoming the Asian wicketkeeper with the most runs against the nation in the longest format of the game. He overtakes MS Dhoni, who has scored 1157 runs in Test Cricket against England.

Here are the Asian wicketkeepers with the most runs in Tests against England

Player	Country	Runs
Rishabh Pant	India	1197
MS Dhoni	India	1157
Farokh Engineer	India	1113
Kumar Sangakkara	Sri Lanka	716
Syed Kirmani	India	707

Pant's Innings Cut Short Due To Run Out

Rishabh Pant could have easily scored his third century of the series, given the fluency with which he was batting. However, he could only manage to score 74, after a brain-fade moment in the crease. As the ball went straight into the hands of Ben Stokes, Pant hesitated for a short moment at the crease, and this resulted in a direct throw hitting the stumps, thus ending a solid partnership between Pant and KL Rahul.
